

STUDENT UNION ELECTIONS 2021

Candidate: Daisy Hingorani-Short

I'm running for the position of Student Union President for 2021 as I'm eager to push Trinity Laban as the diverse and student driven school that it is. I want to bring my enthusiasm for the institution and my experience of the past 3 years as a contemporary dance student to make the best possible experience environment for people in the school.

As a young dance artist, emerging from Trinity Laban through such a trying time, my ambition is to bring forward the determination that we have all shown over the past year to move forward into better times. I want to take care of our student body and to connect us as a community, making Trinity Laban the progressive place that it can and should be, so that your experience is as positive and inclusive as possible.

Trinity Laban is a wonderful collection of individuals and I want to support each person's time and journey through the school. As president my work will be driven exclusively by and for you as the students.

My priorities if elected are as follows:

- Getting young artists into Laban
 - I want people to feel that they're already part of an industry, so I want to bring in current artists and alumni for classes and workshops to bridge the gap and help widen your individual reach
- A shift in focus on restoring the social and chilled spaces in the school
 - To renew the sense of community and rest at Trinity Laban that has been missing during the pandemic
 - Providing comfortable spaces for the student body that feel truly for you
- Lecture series that supports the student body in your futures
 - If you want to know the logistics of freelancing or the step by steps of the professional world, I want to provide spaces for students and alumni to feel set up by this support
- Trinity Laban being a creative space that students can use and mould to your wants
 - As president I will be open and available to your suggestions, I want to make as many of the things you want to see at our school a reality (societies, workshops, events, sharings...)

More than anything I want to shift Trinity Laban into the now, as a school we are made up of such interesting artists, and people should feel supported to make their university experience what they want it to be and a time that fairly represents them.
