

Hello! I'm Sophie from Glasgow. I'm an Undergraduate Dance Science student in my 3rd year, and I'd like to be your LGBTQ+ Officer.

In this flexible role, one of my aims is to strike a balance between creating events which bring light to the seriousness of struggles LGBTQ+ people face (including outside of our institution and across the globe), and events which celebrate the gift of queerness.

In relation to my own sexuality, a topsy turvy journey of over 10 years has helped cement my beliefs that labels are for soup cans. This is a core belief that I find very freeing and am keen to share.

As LGBTQ+ Officer, I would like to:

- Promise confidentiality for any concerns you request be kept private
- Find suitable channels for communication in order to best serve your needs/wishes
- To organise educational events to help inform students (LGBTQ+ or not), on the history of gender and sexuality – and to highlight the parallels between minority groups
- To organise social events to help rest, restore and inspire in our time away from studying, relishing as much queer media as we can together!
