

Vote Tuva For TL SU President!

1

Oversee that all work by the 2022/2023 TLSU team is brought into the 2023/2024 academic year – progress made this year should not be halted because a new team is in place

2

Ensure that communication between faculties and students is clear, concise, and answers to the needs of the students – all students should be able to access the information they need in the way which best suits them

3

Work to make our spaces the best they can be – Trinity Laban has great facilities, but there is always more to be done to make the spaces functional, clean, and inviting

4

Work towards making the Studio Theatre in the Laban building a student-theatre – the theatre already has everything needed for lower-scale productions, so by putting on lighting and producing workshops as well as making arrangements with facilities, the Studio Theatre could function as a space for students to put on their own productions.

5

Be adamant that the student voice should always be the loudest one – all Trinity Laban matter is student matter, and all students should be able to voice their opinion and be heard in matters concerning them
