HOW?

Four Years working at Trinity Laban as a student rep and a member on The TLSU has given me invaluable knowledge on how change is made in small institutions. I will use my skills to recenter the student voice at the heart of your degree.

My Resolve;

Many issues faced by students at Trinity Laban have a similar cause; the student body is not unified enough to enact changes they want to see. With a stronger SU presence, spearheaded by someone with the knowledge and experience of how this institution works, our voice will be amplified by magnitudes.

We need to work as a student body in order to be taken seriously

Experience:

4 year student rep and a year as TLSU Executive Team.
