

Harry Charles = Running for Quartermaster!

Who am I?

My name is Harry Charles, I'm 20 years old and I will be going into my 2nd year on the BA Honours degree in Musical Theatre. I am also a current member of TLSU on the sub team. I would like to continue my work within the union, but as an officer.

What are my main goals?

Being a student at a conservatoire, I feel that the definition of a "Students Union", is to bring all students from all courses together to build a strong and open community amongst everyone. To get this going, a few of my goals include:

*To get activities during the week that involves different departments. For example, a showcase of Musical Theatre, but with a live band.

*Once every few months, I want to see what drinks people would like in the bar. I would do this via votes in every building.

*My biggest goal is to establish a strong TLSU presence in every building. This is because Laurie Grove (Musical Theatre building) does not yet have a Student Union space.

My promises.

If I am lucky to be on the Student Union for another year, I will definitely not disappoint the team. I always make the effort to get to know everyone and I always listen to all opinions that are given. In terms of the job, my promises are as follows:

*Every weekend, I promise to clean/organise the stock room and office. A tidy workplace is a place you want to work in.

*I intend to be at every event that I organise.

*I want to utilise the things we have in the stock room/office.

*If any item is broken/needs fixing, I will personally sort it and get it back to full operations.

Why am I good for this position?

I feel that I am a good choice for this position because once I start something, I finish it. I love Trinity Laban and the student union allowed me to meet some great people from all parts. If I get on TLSU for another year, I want to make sure every single student feels comfortable and welcomed.
