

Poppy Helmer for TLSU Vice President 25/26

Hi! I'm a third year jazz student who can't help but care a lot about the experience and wellbeing of all students at TL.

In my final year at TL, I want to steer the SU towards being as welcoming to students as possible so that if they feel let down by the institution, we are there to support them.

➤ I plan to achieve this by: ⇐

- Updating the student reps system. Ensuring that student reps are actively engaged and collecting feedback which is then received by TL.
- Working at Laban for 50% of my contracted time to guarantee an SU presence across all departments
- Restoring faith in the SU. Overseeing an efficient allocation of lockers at the beginning of the year, using approaches for this suited to each campus. A more efficient system for purchasing and receiving merch.

➤ To improve the experience and wellbeing of students I plan to: ⇐

- Keep the supplies of free tea, coffee, cups and cutlery fully stocked in both SU spaces and watch that the appliances are in working order
- Look into working with local businesses around the three campuses to provide low cost meal options for our students so long days don't put a strain on the wallet and we are fed properly
- Look into revamping the practice room displays at KCC, neatening up what is already there and adding more role models who better reflect our diverse community
- Provide more resources to promote healthy practice such as injury prevention workshops
