

Hi there!

My name is Tegan Kocker, and I would like to be considered for the role of dance officer. Please find below a list of benefits I could introduce.

- I would like to make sure that students are heard as I know some students are not as out-spoken so, I would email out a form that can be anonymous for students to share their thoughts about the course, as I want students to feel that they can approach me with suggestions or concerns.
- I am approachable for anything to do with the course especially with the new first years starting, that if they want to ask me any questions, I am there for them.
- Suggest more options for classes put on by the student union that may not be put on in the workshops during weeks 13 and 29, as an example, different genres like Latin or tap.

I believe I am a very good listener, mediator, very approachable and organised person, which is why I would like to be considered for this role.

Being a current second year student I have gained great knowledge of the course and feel I could help students current and future through their time here at Trinity Laban. As I am enjoying being a Trinity Laban student, I just want everyone else to feel welcomed and heard, but most importantly enjoy themselves.

Thank you very much,

Tegan Kocker
