

John Hudson for Vice President of TLSU 26/27

I'm a second year composition student and I want the SU to be a welcoming space for all and to improve the experience of students.

I want to continue championing the SU space as a place for all students to use and to continue helping students with any issues that may arise during their time at Trinity Laban, as well as providing a space for people to meet and connect.

“How are you going to do this?”, you ask. Good question. I plan on:

- Working with the officers of the SU to ensure every student is heard and to action their feedback to our best ability
- Working with the student representatives in order to improve student relations and to effectively gather feedback
- Working across the campuses to improve SU relations and presence
- Looking into maintaining the facilities across the campuses to ensure that they are as good as they can be for those using them
- Putting on events in the SU across the course of the year to bring people together and increase cohesion across the university
- Making sure that the prices at the SU bar is reasonable and that they don't break the bank whenever you want a drink
