

Vote Sam for Dance officer :)

Hi. I am a second-year dance science student, and I am running to be the dance officer for next year. I've been a student rep for two years now and I've been on the Student union sub-team for one year and across that time I've seen the same issues come up time and time again. This places me in the perfect position to solve these problems. I've seen how people have tried to fix them, and I have seen what works and what

doesn't. As dance officer, I will be able to use that knowledge to find solutions that work for everyone.

Being the dance officer also requires being able to listen to what the student body wants. As the dance officer I will close the feedback loop between students and Trinity Laban and also the students and the student union. This way dancers have a voice in the rooms where decisions are being made for them. I will be that voice for dancers and ensure that all decisions benefit us.

What I plan to do:

- Find SOLUTIONS to problems that have been consistently bothering dancers
- Organise dance classes that respond to the wants of the student body – and give enough time for people to organise them into their lives!
- Revamp Laban SU Hub to make it a nicer place to be
- Create a greater sense of community
- Put on events that consider dancers wants and needs
- Be the voice the dance student body needs
